## SUMMARY

Dynamic full-stack developer with 3 years of experience crafting robust and scalable web apps, adept in the entire RoR stack & leveraging clean code and modern design patterns.

## WORK EXPERIENCE

### ROR Full Stack Developer - KhushiBaby Inc., Jaipur

July 2021 - Present

- Developed an advanced data visualization platform that transformed decision-making for government health officials, enabling them to monitor real-time health data reports across multiple indicators.
- Leveraged agile analytics, interactive charts, and GIS maps to provide intuitive visualizations and empower over 3000+ officials with enhanced decision-making capabilities.
- Collaborated closely with stakeholders to gather requirements, design effective solutions, and ensure successful implementation.
- Led the integration of Twilio and made chatbot for seamless communication, significantly improving scheduling and management of automated voice calls.
- Coordinated with cross-functional teams to ensure successful integration, conducting thorough testing and troubleshooting to maintain system reliability.

### Frontend Developer - airPMO, Freelance

May 2021 - July 2021

- Implemented responsive and intuitive user interfaces using React and Tailwind CSS.
- Leveraged JavaScript libraries to enhance the functionality and user interaction of the CRM platform.

### Ruby Developer - Digiledge Technologies, Freelance

JAN 2021 - APR 2021

- Designed and implemented robust REST APIs using Ruby, ensuring high performance and scalability for a large-scale web application.
- Conducted thorough testing using RSpec and maintained code quality using RuboCop.
- Implemented background processing using Sidekiq to handle time-consuming tasks efficiently.

### ROR Full Stack Developer - HARTMANN Group, Freelance

July 2019 - DEC 2020

- Conceptualized and executed a comprehensive POS solution, resulting in a streamlined and dynamic user experience with significant improvements in processing time.
- Implemented a payment gateway through Stripe, incorporating web3.js library for blockchain communication and deployed on AWS utilizing Docker container registry.

---
